a home where life doesn't stop living

We are innovative

Our pioneering Cedar Philosophy is
delivering life-enhancing results

We are expert clinicians

What sets us apart is the quality
of our complex care

Welcome to Ercall Court

Ercall Court is part of the Morris Care Centre in Wellington. Here we offer bespoke dementia care in a real home from home environment, with a welcoming care team dedicated to giving the highest quality of kindness and care.

With 11 bedrooms, we provide dignified care that respects the individual, ensuring residents continue to live fulfilling lives, being cared for in a loving, safe and sensitively designed environment.

We have made it feel as relaxed and homely as possible and the Home fits in with the local community perfectly and looks more like a residential property than a nursing home.

Inside, every aspect of the design has been sympathetically considered to help those living with dementia. With an individually coloured bedroom door for each resident to help them remember their room, non-reflective glass and unpatterned carpets to promote a sense of calm and safety. Dedicated themed areas around the Home are designed to support those 'walking with purpose', stimulating interest and promoting happy memories. A sensory and relaxing Spa room provides a therapeutic and enjoyable experience with a specialist massage bathing system, ideal for those with reduced postural control. Everything has been designed to help residents feel reassured in their space.

Scientific, Practical and Personal

At Morris Care we understand the complexities and challenges that come with living with dementia.

Through a balance of caring expertise, specialist experience and working alongside professional bodies such as the University of Stirling, we have developed a unique approach to dementia care which we call The Cedar Philosophy. This considers the wellbeing of residents' medical, physical and emotional needs, to promote the most person-centred care possible.

Our philosophy aims to reduce anxiety and stress and can lead to real therapeutic benefits. We work closely with local GPs, consultants and other health professionals so residents receive the best possible holistic care plan.

Tailored Individual Care Plans

We know that dementia affects every individual differently. That is why we tailor every residents personal care plan, making it special to them. It outlines not only their medical needs, but also the little things that make all the difference. We take time to find out about every residents' background and life history - it could be just knowing a favourite book or TV programme or a name they prefer to be known by - it all helps us to communicate on a personal level.

These care plans are reviewed regularly to reflect changing needs and requirements.

Social Wellbeing

At Ercall Court we aim to involve residents as much as possible in sociable activities and allow them to feel part of a friendly and social environment. There are often rituals or routines that need to be observed for those living with dementia. Rest assured it is our privilege to help support these - a garden stroll, checking for post or tea at a certain time.

We encourage regular visiting and welcome residents' family and friends in our Homes.

Food and Drink

We know that food and meal times are something to look forward to, and our sensitively designed menus cater for each resident's personal needs and likes. Delicious and nutritious food is an important part of daily life at Ercall Court which welcomes family and friends to join mealtimes by arrangement.

We know that those living with dementia may have very different needs when it comes to mealtimes and that is why we have talented chefs who are able to meet each individual's requirements and caring staff who help make mealtimes a pleasurable part of every day.

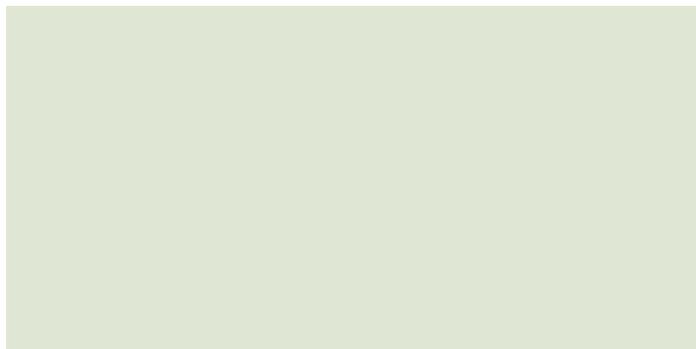

Part of the Family

Ercall Court is the latest addition to the Morris Care family of Nursing Homes, where we have been delivering outstanding care for over 25 years around Shropshire and Cheshire.

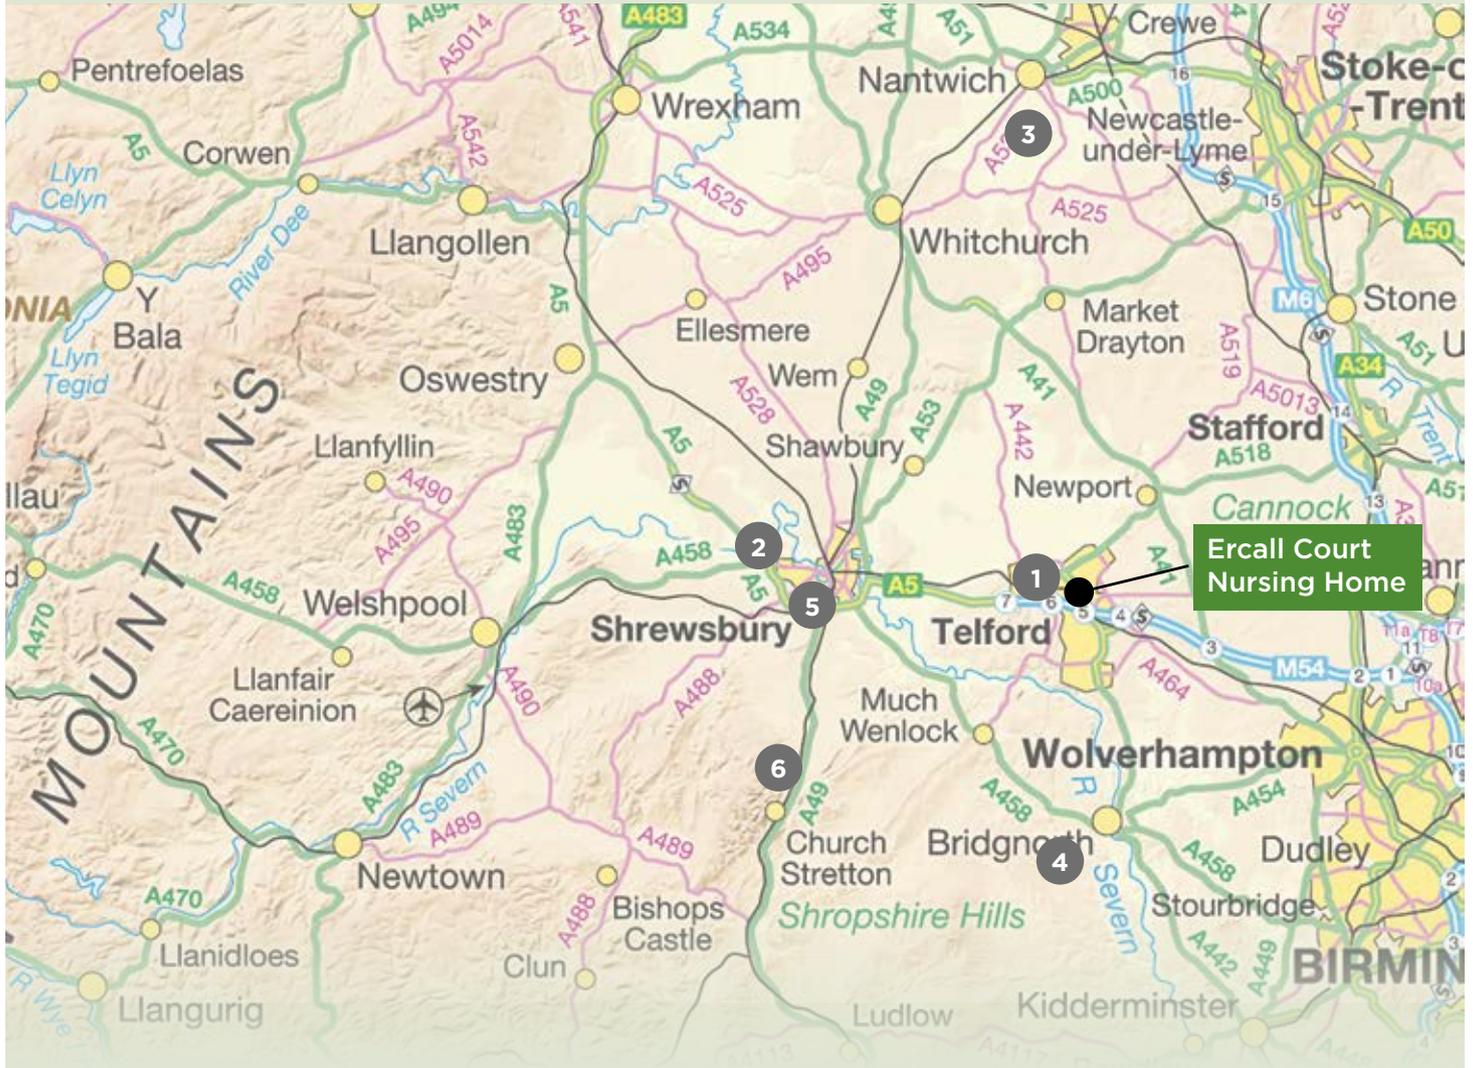

What sets us apart is the quality of our complex care, rehabilitation and pioneering dementia care, all delivered within elegantly designed, sociable homes. From sensitive respite stays to disability care, we can create the right care plan, in the right Home, for you or your loved one.

Whatever your need, even if you are not sure what that is, we are here to advise. Please get in touch to arrange a visit. We would love to hear from you.

Call us today on 01743 232005.
