We Care

“My number one priority is to ensure all residents have the best quality of life as possible. I have a very family-orientated attitude towards my role and I aim to involve residents’ family and friends as much as I can, ensuring everybody has as a positive experience at Isle Court.”

Claire joined Morris Care back in December 2016 as Deputy Manager at Care Centre and then progressed to Home Manager at Isle Court. With an extensive career background of management within the healthcare sector, she brings a breadth of knowledge and expertise to the team.

Claire Smith, Home Manager
Isle Court

Quality Care and Luxury Living

Isle Court offers quality specialist care from palliative and convalescent care to long and short term care, as well as day care. .

Set in the Shropshire countryside and situated five miles from the historic town of Shrewsbury, the home was extended and refurbished from a country house, providing 52 ensuite bedrooms which have been designed to ensure independence is nurtured.

You can enjoy the landscaped gardens and the views of surrounding peaceful countryside, whilst the décor and furnishings have all been sympathetically chosen to meet your needs but retain the look and feel of a welcoming country home.

Tailored to You

We pride ourselves in treating every resident as an individual, with the dignity and respect they deserve, ensuring our staff have the time and resources to get to know the residents they are caring for.

We celebrate the independence of each resident in our home whether it's through the personal care programme you will receive, your food and dietary choices, or, even through your own Lifebook - a personal journey, detailing key events and milestones through pictures.

Our teams have been trained to the highest standards to care with compassion and sensitivity, as well as having the correct skill set to manage your well being. Our care services are individually designed and tailored to meet and support your needs.

Social Wellbeing

Day to day life should be enjoyable and they say variety is the spice of life. At Isle Court, this enjoyment can often be found when watching a good film, enjoying an afternoon tea at our summer parties, by having a day out with friends or simply by maintaining a sense of independence.

At Isle Court we have a dedicated social life coordinator who is part of the core care team. The Social Life Coordinator's role is to ensure that the quality care and compassion you receive from the nursing staff is supplemented by a focus on your social wellbeing.

If you need five minutes to yourself, you can enjoy the sensory garden filled with an abundance of lavender, thyme and mint in summer, or you can while away the day watching the sunset over the idyllic Shropshire fields.

These activities offer the chance to mix with other residents, family and friends, as you wish, but importantly help to maintain a fulfilling daily lifestyle to create new stories and continue to learn new skills, which is essential to the care we offer at Isle Court.

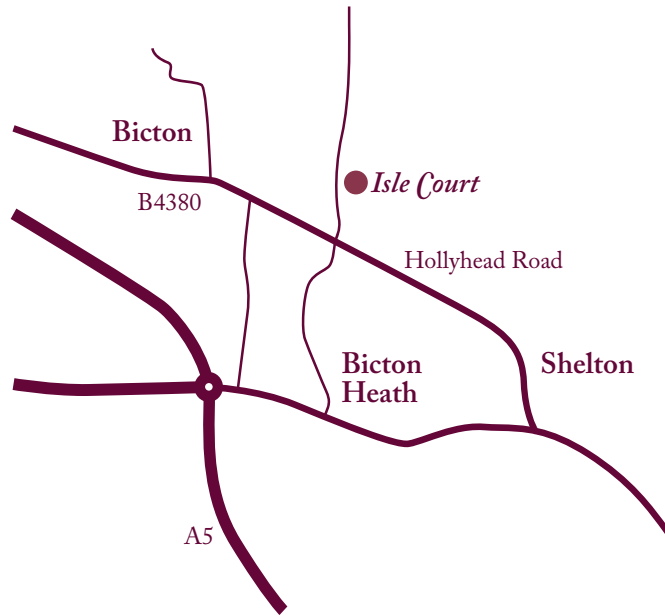

Clinical Excellence

“At Morris Care we continue to lead and deliver the highest standards of clinical care and first rate nursing. I work closely with all our clinicians, local GPs and health authorities to further ensure we deliver clinical excellence and enhanced resident care and experiences across all our homes.”

Sue Austin, Chief Operating Officer
Morris Care

Isle Court Nursing Home
