

MORRIS
CARE

Oldbury Grange

Bridgnorth, Shropshire

Residents enjoy pleasant views overlooking the Shropshire Hills. Our team offer expert professional care whilst helping residents maintain a happy and healthy daily lifestyle

ACCREDITED TRUSTED AWARD WINNING

We Care

“The community is extremely important to me. I want Oldbury Grange to be known in the area for its outstanding care and its open door philosophy, we are here whenever someone needs us. I work closely with residents’ families to ensure everyone feels a part of the Morris Care family.”

Jo qualified as a Registered Nurse in 2007 and has worked in nursing homes ever since. It has always been her desire to care for and support those who are moving in to the later stages of life and for those living with dementia. From working in a hospice providing palliative care, to creating and implementing a training package for overseas nurses, Jo has vast experience in the care industry and brings with her a fantastic work ethic with a person-centred approach to her role..

Joanne Hicks, Home Manager
Oldbury Grange

Quality Care and Luxury Living

Set close to the bustling town of Bridgnorth, Oldbury Grange provides high standards of long and short term care for the elderly and mentally frail.

The home offers high quality furnished bedrooms with most offering pleasant and restful views, spacious dining rooms, a choice of sitting rooms and a large, airy conservatory overlooking the Shropshire Hills.

Oldbury Grange also has its own specialist dementia unit, The Rowans. Our nursing staff have been trained to the highest standards to care for those living with dementia, with a sensitive approach and the correct skill set to manage their well being.

Tailored to You

We pride ourselves in treating each resident as an individual, with the dignity and respect they deserve, ensuring our staff have the time and resources to get to know the residents they are caring for.

We celebrate the independence of each resident in our home whether it's through the personal care programme you receive, your food and dietary choices, or, even through your Lifebook - a personal journey, detailing key events and milestones through pictures.

Our teams have been trained to the highest standards to care with compassion and sensitivity as well as having the correct skill set to manage residents' wellbeing. Our care services are individually designed and tailored to meet and support our residents' needs.

Social Wellbeing

Day to day life should be enjoyable and they say variety is the spice of life. At Oldbury Grange, this enjoyment can often be found when watching a good film, enjoying an afternoon tea at our summer parties, by having a day out with friends or simply by maintaining a sense of independence.

At Oldbury Grange we have a dedicated social life coordinator who is part of the core care team. The Social Life Coordinator's role is to ensure that the quality care and compassion you receive from the nursing staff is supplemented by a focus on your social wellbeing.

If you need five minutes to yourself, you can enjoy the peace and tranquility of our lounges where you can while away the day watching the sunset over the idyllic Shropshire fields.

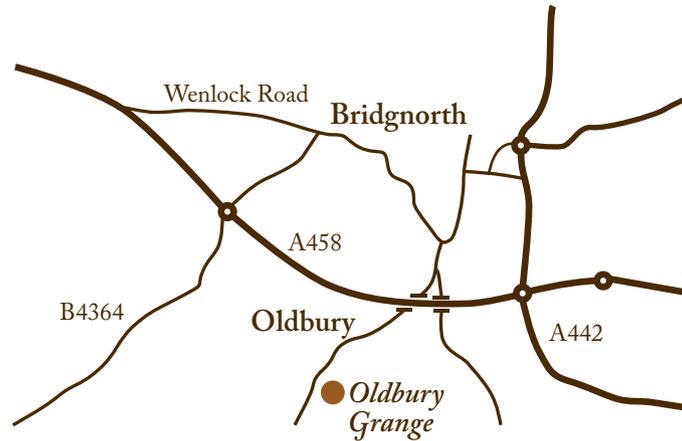

Clinical Excellence

“At Morris Care we continue to lead and deliver the highest standards of clinical care and first rate nursing. I work closely with all our clinicians, local GPs and health authorities to further ensure we deliver clinical excellence and enhanced resident care and experiences across all our homes.”

Sue Austin, Chief Operating Officer
Morris Care

Oldbury Grange Nursing Home
