

**MORRIS**  
CARE

*Radbroke*

*Shrewsbury, Shropshire*

Set in the heart of the community,  
our residents are able to maintain  
independent lifestyles whilst receiving first  
rate support from our experienced care team

ACCREDITED    TRUSTED    AWARD WINNING

## *We Care*

*“A home from home, that’s the most important part of the care we offer. My team and I work tirelessly to ensure the residents are happy, contented and enjoy every day with us.”*

Elaine Hughes qualified as a nurse 40 years ago, gaining experience in a local private hospital; nursing patients with both medical and surgical conditions, she was able to convert to a first level nurse in 1993 gaining even greater experience and knowledge.

She joined Morris Care at Radbrook in 2008 and was promoted from Team Leader to Deputy Nurse Manager before becoming the Home Registered Manager.

Today Radbrook celebrates a committed team of 80 who ensure their residents receive the highest quality of care.

Radbrook

# *Quality Care and Luxury Living*

*Radbrook Nursing Home in Shrewsbury provides high standards of long and short term care as well as palliative care for the elderly frail.*

Close to local amenities, located within the popular Radbrook Green complex, the home is also an ideal retreat for those needing respite care or post operative convalescence.

All of the home's 43 bedrooms are carefully designed to deliver quality nursing care in relaxed surroundings.

Radbrook has five spacious sitting rooms and seating areas and an elegant dining room, all located close to residents' bedrooms, which allows for easy access. For peace and tranquility, Radbrook also has a peaceful courtyard garden and conservatory with seating areas to enjoy spending time with friends and family or for those quiet reflective moments.

## *Tailored to You*

*We pride ourselves in treating each resident as an individual, with the dignity and respect they deserve, ensuring our staff have the time and resources to get to know the residents they are caring for.*

We celebrate the independence of each resident in our home whether it's through the personal care programme you receive, your food and dietary choices, or, even through your Lifebook - a personal journey, detailing key events and milestones through pictures.

Our teams have been trained to the highest standards to care with compassion and sensitivity as well as having the correct skill set to manage your well being. Our care services are individually designed and tailored to meet and support your needs.

# *Social Wellbeing*

*Day to day life should be enjoyable and they say variety is the spice of life. At Radbrook, this enjoyment can often be found when watching a good film, enjoying an afternoon tea at our summer parties, by having a day out with friends or simply by maintaining a sense of independence.*

At Radbrook we have a dedicated social life coordinator who is part of the core care team. The Social Life Coordinator's role is to ensure that the quality care and compassion you receive from the nursing staff is supplemented by a focus on your social wellbeing.

These activities offer the chance to mix with other residents, family and friends, as you wish, but importantly help to maintain a fulfilling daily lifestyle to create new stories and continue to learn new skills, which is essential to the care we offer at Radbrook.

# *Clinical Excellence*

*“At Morris Care we continue to lead and deliver the highest standards of clinical care and first rate nursing. I work closely with all our clinicians, local GPs and health authorities to further ensure we deliver clinical excellence and enhanced resident care and experiences across all our homes.”*

Sue Austin, Chief Operating Officer  
Morris Care

## *Radbrook Nursing Home*

*Stanhill Road, Off Back Farm Road,  
Shrewsbury, Shropshire, SY3 6AL*
